The Athletics System

Why Belgotex Sport?

Belgotex Sport is Africa's leading sports surfaces specialist, committed to manufacturing, distributing, construction, installation and the development of innovative sports systems. Our world-class systems are designed to elevate sport, empowering South African athletes to train and compete on surfaces recognised and approved by the world's leading sporting bodies.

- **Proven performance – extensively tested and certified systems**
- **Turnkey solution – design, construction, manufacture, installation and maintenance**
- **Extensive project portfolio in both professional and amateur sport**
- **Dedicated to environmentally friendly systems**
- **In house expertise on installation**

Our systems can be installed and used in all climates, are extremely durable and weather resistant, and maintain long-term functionality.

Offering a range of innovative products and systems that fit numerous sports facilities and budgets, the seamless surfaces can be easily renovated or re-surfaced.

World Athletics Approved

Belgotex Sport athletics tracks meet the latest World Athletics Regulations for Track and Field (EN 14877), as well as the World Athletics regulations and technical standards.

A cost-effective solution for elite performance, each surface provides safety and comfort, supporting athletes in their efforts to achieve their best while minimizing the risk of injury.

HERCULAN

Herculan SR Olympic

The Herculan SR Olympic system is an environmentally friendly, seamless, spike resistant system with point elastic properties. The Herculan SR Olympic complies with the actual European standards according to the EN 14877. The system is on the World Athletics list of approved and certified athletic tracks and is suited for both national as well as international competitions.

The high performance, seamless Herculan SR Olympic is a three layer system of high performance, strong, flexible, polyurethane self-levelling layers. The first two layers are embedded with high performance, light weight, EPDM granules which provide the right comfort and unique characteristics of this system. The last layer is embedded with high performance, coloured EPDM granules.

The Herculan SR Olympic is water impermeable, spike resistant, UV-resistant and weather resistant. It is durable and suited for usage under all weather conditions.

Key Benefits & Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Withstands all climates & environments
- Requires minimal maintenance
- Seamless
- Extremely durable

Extended Specifications

Product Name	Herculan SR Olympic
Application	Athletics Track
Material	EPDM
Thickness	15.1mm

Herculan SR Sprint

The Herculan SR Sprint system is an environmentally friendly, seamless, spike resistant system with point elastic properties. The Herculan SR Sprint complies with the actual European standards according to the EN 14877. The system is on the World Athletics list of approved and certified athletic tracks and is suited for both national as well as international competitions.

The high performance, seamless Herculan SR Sprint system consists of an in-situ applied rubber base layer which is covered with a strong, flexible, polyurethane self-levelling layer, embedded with coloured EPDM granules. The Herculan SR Sprint is water impermeable, spike resistant, UV-resistant and weather resistant. It is durable and suited for usage under all weather conditions.

Key Benefits & Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Withstands all climates & environments
- Requires minimal maintenance
- Seamless
- Extremely durable

Extended Specifications

Product Name	Herculan SR Sprint
Application	Athletics Track
Material	SBR EPDM
Thickness	16.1mm

Herculan SR Sprint S

The Herculan SR Sprint S system is an environmentally friendly, seamless, spike resistant system with point elastic properties. The Herculan SR Sprint S complies with the actual European standards according to the EN 14877. The system is on the World Athletics list of approved and certified athletic tracks and is suited for both national as well as international competitions.

The high performance, seamless Herculan SR Sprint S system consists of a pre-fabricated rubber base layer which is covered with a strong, flexible, polyurethane self-levelling layer, embedded with coloured EPDM granules. The Herculan SR Sprint S is water impermeable, spike resistant, UV-resistant and weather resistant. It is durable and suited for usage under all weather conditions.

Key Benefits & Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Withstands all climates & environments
- Requires minimal maintenance
- Seamless
- Extremely durable

Extended Specifications

Product Name	Herculan SR Sprint S
Application	Athletics Track
Material	Prefabricated SBR with EPDM
Thickness	13.1mm

Herculan SR National

The Herculan SR National system is an environmentally friendly, seamless, spike resistant system with point elastic properties. The Herculan SR National complies with the actual European standards according to the EN 14877. The system is on the World Athletics list of approved and certified athletic tracks and is suited for both national as well as international competitions.

The high performance, seamless Herculan SR National system consists of an in-situ applied rubber base layer which is covered with multiple strong, flexible, polyurethane spray coat layers. The Herculan SR National is water permeable, spike resistant, UV-resistant and weather resistant. It is durable and suited for usage under all weather conditions.

Key Benefits & Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Withstands all climates & environments
- Requires minimal maintenance
- Seamless
- Extremely durable

Extended Specifications

Product Name	Herculan SR National
Application	Athletics Track
Material	SBR with a Polyurethane Spray Coat
Thickness	12.5mm
