# — The Multi-Use System

---

# **Why Belgotex Sport?**

**Belgotex Sport is Africa's leading sports surfaces specialist, committed to manufacturing, distributing, construction, installation and the development of innovative sports systems. Our world-class systems are designed to elevate sport, empowering South African athletes to train and compete on surfaces recognised and approved by the world's leading sporting bodies.**

- **Proven performance – extensively tested and certified systems**
- **Turnkey solution – design, construction, manufacture, installation and maintenance**
- **Extensive project portfolio in both professional and amateur sport**
- **Dedicated to environmentally friendly systems**
- **In house expertise on installation**

**Our systems can be installed and used in all climates, are extremely durable and weather resistant, and maintain long-term functionality. Offering a range of innovative products and systems that fit numerous sports facilities and budgets, the surfaces can be easily renovated or re-surfaced.**

# GreenFields XT 40

Multi-sports pitches are popular with schools and other educational establishments, because of the cost and space saving benefits of having just one surface for multi sports instead of needing a separate facility for each sport.

A multi-sport artificial turf pitch is a safe and practical choice. It replaces dusty, sandy or hard court pitches and prevents injuries caused by falling on a hard surface such as a traditional paved playground.

As specialists in sports surfaces, Belgotex Sport is able to design and install high quality artificial turf that is suitable for a variety of sports to be played on. The fibrillated tape fibres used for this system hold the infill in place and provide industry-leading durability.

## Key Benefits & Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Infill splash reduced due to high pile density
- High usage possible from strength of yarn combination
- Minimal maintenance requirements

## Extended Specifications

<b>Product Name</b>	GreenFields XT 40
<b>Application</b>	Five-a-side Football
<b>Fibre</b>	100% polyethylene straight fibrillated yarn
<b>Infill</b>	15kg Silica Sand per m <sup>2</sup> + 7kg rubber per m <sup>2</sup>
<b>UV Warranty</b>	5 Years
<b>Guarantee</b>	5 Years
<b>Primary Cloth</b>	Double polypropylene with fibre glass rotary weave

# Multi-Oval

Multi-sports pitches are popular with schools and other educational establishments, because of the cost and space saving benefits of having just one surface for multi sports instead of needing a separate facility for each sport.
