# **Why Belgotex Sport?**

**Belgotex Sport is Africa's leading sports surfaces specialist, committed to manufacturing, distributing, construction, installation and the development of innovative sports systems. Our world-class systems are designed to elevate sport, empowering South African athletes to train and compete on surfaces recognised and approved by the world's leading sporting bodies.**

- **Proven performance – extensively tested and certified systems**
- **Turnkey solution – design, construction, manufacture, installation and maintenance**
- **Extensive project portfolio in both professional and amateur sport**
- **Dedicated to environmentally friendly systems**
- **In house expertise on installation**

**We have substantial experience in the design and construction of professional water and sand dressed artificial hockey pitches.**

**We are proud to be able to install these in line with the strict standards set by the International Hockey Federation.**

### **FIH Approved**

Offering professional grade playing surfaces that meet global standards allows for training and community activities as well as hosting major competitions like The Olympic Games and the Hockey World Cup.

- Number of local pitches installed: 190
- Number of international pitches installed: 255

# GreenFields TX Pro Plus

## High Speed Water-Based Hockey System for Professional Play

Belgotex Sport's TX Pro Plus offers the same quality in terms of stability as the TX Pro, with added performance of TX ball control and grip via the high fibre density. This water-based product ensures elite high speed play for hockey. An FIH Global certified professional hockey product, GreenFields TX Pro Plus is the ideal solution for the professional hockey clubs and international tournaments, offering players extremely fast play.

## Key Benefits & Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- High speed play (1.5 million fibres per m<sup>2</sup>)
- High water retention (high-density fibres)
- Excellent ball play (ultra-smooth surface)
- Equal ball roll in all directions
- Consistent quality foot grip (torsion)
- International competition approved

# GreenFields TX

## Entry Level Water-Based Hockey Surface for a Fast Game

Developed as a cost-effective product suitable for wet play, GreenFields TX is an ideal product for players to advance their skills on a fast surface. The densely tufted product provides a smooth playing surface with equal ball roll. The multi-layer backing properties improves water retention – resulting in a consistently high-speed game. This GreenFields TX system is the ideal solution when renovating a sand-dressed pitch or as your first water-based surface. An FIH Global certified cost-effective choice.

## Key Benefits & Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- High speed play
- Reduced water usage
- Stabilised surface (trio layer backing)
- Cost effective solution
- Total ball control
- International competition approved

## Extended Specifications

<b>Product Name</b>	GreenFields TX
<b>Application</b>	Water-Based Hockey Surface
<b>Fibre</b>	100% Polyethylene Texturised Monofilament
<b>Infill</b>	N/A
<b>UV Warranty</b>	8 Years
<b>Primary Cloth</b>	Triple Layer Primary
<b>Tertiary Cloth</b>	N/A

# GreenFields TX SW

## Semi-Water Hockey Pitch for Consistent Play

Developed as an optimum surface for players to improve their technical skills on, GreenFields TX SW provides a stable pitch for total control and long lasting performance. GreenFields TX SW is partially filled with sand offering excellent grip for players, irrigation is an option but is not a standard requirement. GreenFields TX SW is FIH National certified making it ideal for amateur clubs that want a high-performance product.

## Key Benefits & Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Excellent foot grip (tight tuft bind)
- Stable sand dressed surface
- Total control for technique development
- High durability (TX monofilament fibre)
- Ultimate Surface for high speed play
- Consistent playing characteristics

## Extended Specifications

<b>Product Name</b>	GreenFields TX SW
<b>Application</b>	Sand Dressed Hockey Surface
<b>Fibre</b>	100% Polyethylene Texturised Monofilament
<b>Infill</b>	12.5kg Silica Sand per m <sup>2</sup>
<b>UV Warranty</b>	8 Years
<b>Primary Cloth</b>	Triple Layer Primary
<b>Tertiary Cloth</b>	N/A

# GreenFields TX SD

## Sand-Dressed Hockey Surface for Ultimate Ball Control

The GreenFields TX SD has been developed as an entry level surface, that is stable while providing total ball control. The sand dressed pitch stability is excellent, providing consistent ball behaviour that is ideal for entry level and developing hockey players. Allowing great everyday performance without water, the system can be irrigated for matches and higher skilled players to enjoy faster ball speeds.

## Key Benefits & Performance

Belgotex Sport's innovative systems have been tested extensively to meet all necessary regulations and have been proven to maximise playing characteristics.

- Resilient
- Cost-effective
- All year use
- Consistent ball behaviour
- Excellent skill development
- Excellent pitch stability and durability
- Suitable for wet or dry use
